

BUILDTRACE LABS LLC

Intelligent Technology Solutions for Government

FEDERAL CAPABILITY STATEMENT

Biniam Berhe, Owner

CORE COMPETENCIES

BuildRace Labs LLC delivers cutting-edge technology solutions to federal and Virginia state agencies, specializing in AI-powered systems, custom software, and enterprise modernization.

- **Artificial Intelligence & Machine Learning**— AI strategy, ML model development, NLP, computer vision, predictive analytics
- **Custom Software Development**— Full-stack, cloud-native applications, API development, agile delivery
- **Enterprise Applications**— System integration, ERP implementation, workflow automation, business process optimization
- **Web Design & Development**— Responsive design, CMS, Section 508 accessible web applications
- **Mobile App Development**— Native iOS & Android, cross-platform, mobile strategy

DIFFERENTIATORS

- **Small Business**— Committed to excellence in federal and state contracting
- **Proven Federal Experience**— Delivered enterprise solutions through Lockheed Martin, Northrop Grumman, and directly at the IRS
- **AI-First Approach**— Every solution leverages modern AI/ML to maximize efficiency and insight
- **Compliance-Ready**— Experienced with federal compliance (FISMA, NIST 800-171, CMMC)
- **Virginia-Based**— Deep understanding of state/local government needs with proximity to D.C. agencies
- **Agile & Responsive**— Small business agility with enterprise-grade delivery quality

PAST PERFORMANCE

Federal Enterprise Applications — Lockheed Martin (Subcontractor)

Designed and developed enterprise-grade applications supporting federal agency missions. Led full-stack development using modern frameworks with agile methodology, delivering scalable solutions on time and within budget.

Defense Systems Software Engineering — Northrop Grumman (Subcontractor)

Senior software engineer contributing to mission-critical systems for Department of Defense programs. Applied rigorous security standards and software engineering best practices in classified environments.

Enterprise Government Systems — Internal Revenue Service (Direct)

Full-time software engineer building and maintaining enterprise applications serving millions of Americans. Deep expertise in government IT infrastructure, compliance requirements, and large-scale data systems.
